

**Ideas from Members' Shops\*** :The biggest problem with buffing is changing the buffs and not contaminating a finer buff with coarser grit (or just shop dirt). So if you could change them quickly, you can store them correctly and use only a given buff with a given grit and for a given use (like red rouge on copper), so....

## Homemade 'Quick-Change' Buffer

The Florida Artist Blacksmith Association(FABA) - Chapter of Artist Blacksmith Association of North America, Inc., is a 501(c)(3) non-profit educational organization whose purposes are to teach, promote, and preserve the art of blacksmithing. Contributions are tax-deductible to the extent provided by law. FABA publishes the Florida Clinker Breaker monthly, and FABA membership includes a subscription. We solicit correspondence and unpaid articles on any subjects related to FABA's purposes. ABANA chapter newsletters may reprint non-copyrighted material if it is credited to the author and this newsletter. You need the publisher's permission to reprint copyrighted material unless otherwise noted.
